WISELIVING

SUSTAINABLE HEATING, COOKING & HOT WATER SYSTEMS

AUSTRALIAN MADE, OWNED & OPERATED

CLARENDON LEGACY

The Clarendon Legacy is a stunning blend of versatility, craftsmanship, and modern innovation. Proudly Australian-made with locally sourced materials, it features elegant cast iron doors that give a contemporary twist on classic design.

This mid-size powerhouse offers both oven and stovetop cooking, with room for 5-6 small pans or direct cooking on the hotplate.

Upgrade with a 5kW or 8kW boiler to heat your domestic hot water, and pair with solar for year-round efficiency - solar in the warmer months, Clarendon Legacy in the cooler months, delivering both warmth and convenience.

- Hand Crafted with love in Albury, NSW
- Wood-fired Cooking Excellence
- 10 Year Warranty*
- Eco-Friendly, Clean, Carbon Neutral Heating
- Domestic Hot Water Compatible

Part of the Thermalux Range

Flue (Center position, oval base)	150mm
Stove Weight (Body only)	185kg
Stove Weight (Splashback + Legs)	211kg

The Clarendon Legacy combines timeless old-world charm with modern functionality, making it the perfect choice for both contemporary and country kitchens.

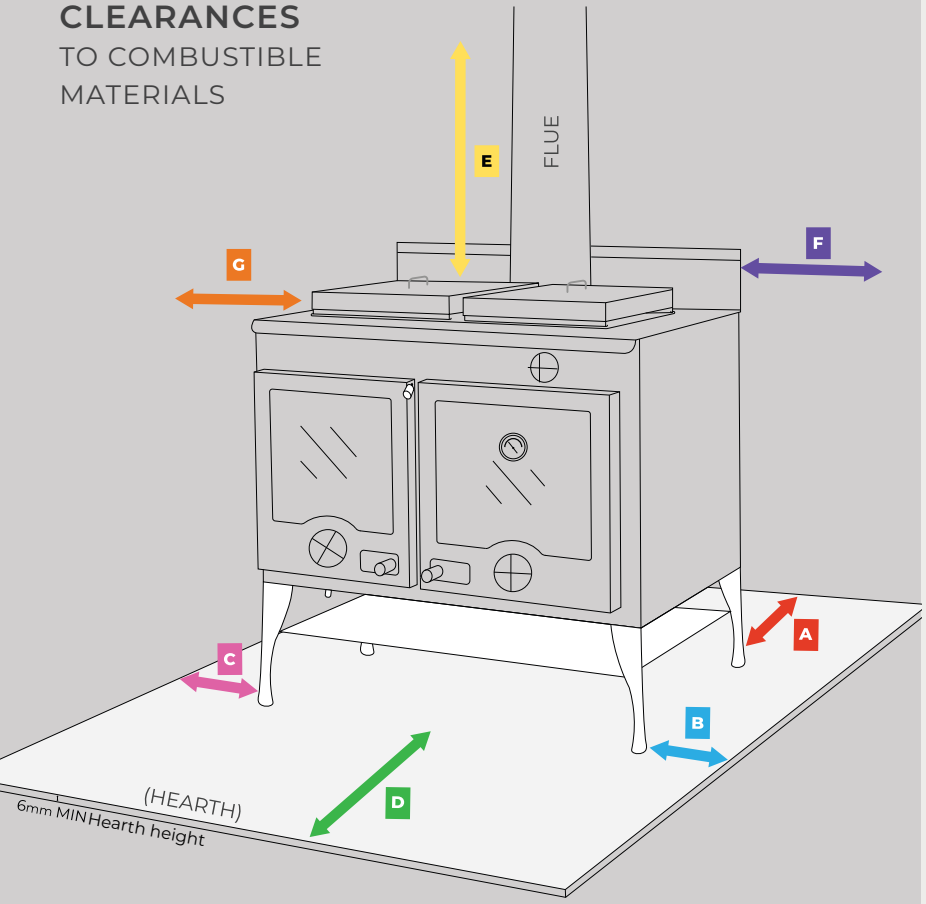
Fully welded and crafted from premium stainless steel, mild steel, and cast iron, it is built to last. The cooker comes with elegant Queen Anne-style legs as standard, or it can be installed on a non-combustible plinth for a sleeker, more customised look to suit your home's aesthetic.

In addition to being a high-performance cooker, the Clarendon Legacy is available with 5kW or 8kW boilers to heat your domestic hot water.

Choose from a stunning range of colours in our Pioneer Collection of high-temperature paint finishes, designed for easy maintenance and touch-ups, ensuring your cooker looks brand new for years.

For more details on our Pioneer Collection, visit www.wiseliving.com.au/thermalux-colour-range.

CLEARANCES
TO COMBUSTIBLE MATERIALS



BELOW STOVE:

A (REAR) = 50MM
B (OVEN SIDE) = 50MM
C (F/BOX SIDE) = 50MM
D (HEARTH) = 300MM

ABOVE STOVE:

E (OVERHEAD) = 900MM
F (OVEN SIDE) = 285MM
G (F/BOX SIDE) = 285MM

INSTALLATION

We recommend contacting a qualified installer to fit the flue and ensure the stove airways are drawing correctly, and it meets local building regulations.

Do not connect boiler units to an un-vented Hot Water system. Do not fire boiler units without connecting water to boiler.

HEARTH:
The hearth must be constructed from a minimum 6mm thick non-combustible material with a thermal conductivity of 0.25 W/m·K.

*Firebox width/depth size varies slightly between dry model and boiler units due to firebricks. 10 Year Warranty applies to dry unit only. 5/8kW boiler unit Warranty is 5 years.

Unit measurements may incur slight differences +/- 5mm.
